National Transport Trust

Trustees' Report

The trustees present the annual report together with the financial statements of the charity for the year ended 31 October 2023.

Objectives and activities

Objects and aims.

The Trust is the United Kingdom's only national charity whose aim is to promote and support the conservation of Britain's air, water, rail and road transport heritage.

The aim of the National Transport Trust is to promote and encourage awareness, preservation and the use of Britain's transport heritage in all its form. In the furtherance of these aims, the Trust sets out to promote and facilitate co-ordination of the transport preservation movement. The Trust also lobbies on behalf of transport heritage related matters.

The Trust makes financial grants and loans to those undertaking transport heritage restoration projects and recognises personal effort and achievement through its annual awards.

In addition the Trust marks sites of transport significance by means of a plaque (Red Wheel) scheme which is backed by an online database.

Britain's place in the history and development of transport is second to none; the Trust's aim is to ensure that future generations have the opportunity to study and enjoy our achievements in water, road, rail and air transport, by preventing the loss of irreplaceable relics and material and providing accommodation and maintenance facilities for those that are saved.

The Trust offers practical advice and financial assistance and seeks to increase public awareness of the achievements and needs of the transport heritage sector and has a unique knowledge of all aspects of transport preservation.

Public benefit

The trustees have reviewed the objects, goals, services and objectives of the charity in the light of this requirement and can confirm that the National Transport Trust serves the public benefit. This Trustees' Annual Report continues to evidence how the charity strives to meet identified needs.

The trustees confirm that they have complied with the requirements of section 4 of the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission for England and Wales.

Review of the year

The Trust has achieved net income of £75,888 on unrestricted funds (2022: net expenditure of £17,199) and net income of £295 on restricted funds for the year (2022: net income £831). The balance held in unrestricted funds as at 31 October 2023 was £289,283 (2022: £213,395) of which £4,220 (2022: £4,220) is represented by fixed assets and is not therefore readily available. The balance held on restricted funds at the year-end was £12,266 (2022: £11,971).

One of the Trust's main projects - The "Red Wheel" Transport Heritage plaques scheme, raises both the profile of the National Transport Trust within the transport preservation world, but also exposes the history of the sites themselves. The recent addition of QR codes to some sites now provides a direct link to the relevant part of our extensive database to provide further in-depth information. Monitoring is showing this to be very successful.

National Transport Trust

Trustees' Report continued

The trustees meet four times a year, nominally in the London Area. This year online meetings via Zoom have continued for some providing greater flexibility for attendance and reducing costs. The Governing Document makes due allowance for such hybrid meetings.

The Trust has throughout this year, been keeping in touch with our Affiliate members and representing their interests through to Government via the Heritage Alliance. We have tried to ensure the voice of mobile heritage has been heard.

2023 saw the return of the AGM weekend and our visits program, with numbers continuing to rise as the year progressed. Our 2023 awards ceremony was held at Fawley Hill in September 2023.

Annual Awards

A major part of the Trust's work is to support restorers and to recognise their worth; each year we make personal recognition awards and restoration awards. The restoration awards are linked to a donation to these projects to assist them to completion. £12,500 was donated for the 2023 Restoration awards.

From November 2011 to end October 2023, the Trust has expensed £201,493 from reserves on the awards programme and of this £156,500 has been actual donations to the many restoration projects supported, £9,200 was donated via special awards and £5,500 donated to young preservationists of the year.

The 2023 awards ceremony was hosted by our President, Judy, Lady McAlpine at Fawley Hill. Our Guest of honour was our patron, Her Royal Highness The Princess Royal, who presented the Awards to our winners.

The Preservationist of the Year award – the Trust's highest honour – went not to an individual but to a group of individuals - the Britten-Norman Aircraft Preservation Society.

The first of our Lifetime Achievement Awards went to Barry Ford in recognition of his work on the Medusa harbour defence launch. The second went to Martin Southam and Karl Tecklenberg for their work on Leyland double-decker bus TBC163. Finally, the third award went to Oliver Heal in recognition of a lifetime of service to transport heritage in general and the history of Sunbeam in particular.

We had two Young Preservationist of the Year award winners this year. The first went to 12 year old Henry Dukes for his efforts in bringing back to life a 1937 Austin. The second went to Hamish McNaught for his work on restoring a 1930 rolls Royce 20/25.

Restoration awards were given to the following, Stephen Middleton & Family, Ian Cryer, Anthony Coulls, Stephen Prior, The Western Desert Recce Group, Andrew Robson and Katherine Norris, Nigel Bayes, Philip Jones, Andy Bishop, The Thames Sailing Barge Trust, The Excelsior Trust, City of Portsmouth Preserved Transport Depot, Dan Brook, Stephen Slater and the Lincolnshire Vintage Vehicle Museum.

More information on award winners and their projects can be found on our web site www.nationaltransporttrust.org.uk.

National Transport Trust

Trustees' Report continued

Visits/events programme

The visits programme allows Trust members to visit many locations of transport significance.

In 2023 our visits included trips to the Dunsfold Land Rover museum, Hollycoombe, Leighton Buzzard narrow gauge railway, Morgan motors and the Ford Heritage Museum. All were well subscribed.

Many thanks must go to our visit organisers – Alan Wallwork, Brian Ward and Jon Jolliffe for their efforts in managing the return of our visits programme.

Annual General Meeting and weekend of visits

The AGM weekend this year was centred in Ipswich and took in the Garrett Long Shop museum, where a new Red Wheel was unveiled. A visit to Ipswich waterfront followed by a boat trip up the Orwell to Felixstowe rounded off in the evening with a fascinating talk on Neville Shute. The next day started with the formal AGM and then we headed off to the Cold War museum at Bentwaters and in the afternoon, the East Anglia Railway Museum.

Finances, Funding and Support

The Trust's underlying position remains capital-rich but regular income-poor. Regular income is from membership subscriptions and individual generous one-off donations. Most operating costs are covered by this regular income, but our Restoration Awards and Red Wheel programmes are mainly funded from our reserves. Legacies, therefore, remain an important source of funding for the Trust. We take the opportunity on a regular basis to remind members of the opportunity to support the awards and Red Wheel programmes via legacies.

The Trust continues to seek good low-risk returns on its long-term funds. We do make loans to affiliate members for qualifying projects at interest rates beneficial to both parties.

The Trust has two affiliate loans in place at the end of the financial year. The first supports the Locomotive Conservation and Learning Trust, which trains young persons in the skills needed to restore and conserve railway artefacts. Training the next generation of restorers is a key part of ensuring the future viability of the Heritage Railway movement. LCLT also provides technical support to locomotive owners and groups. The second loan is to the Gwili Vintage Carriage Group which has enabled them to complete the purchase of a Ransom Crane from the National Railway Museum.

The tangible assets of the Trust, shown in the accounts at £4,220 is the silver model of SS Great Britain awarded to the Preservationist of the Year annually. The Trust also owns the 1830 built Locomotive Invicta. This asset was purchased in 1977 for the sum of £1, to afford it future protection. The locomotive has been on show for some years at Canterbury Heritage Museum in Kent and has now been successfully moved to the Whitstable Museum.

The administrative work of the Trust makes maximum use of electronic communications and Cloud-based systems to reduce postage and minimise other costs. Our move to online systems has worked well for us. The Trust's activities are undertaken entirely by volunteers without whom the Trust would not be able to carry out its work. Trustees wish to express their gratitude to this small loyal group.

Heritage Alliance

The Trust is a member of The Heritage Alliance, the biggest alliance of heritage interests in the UK. The Alliance acts as an authoritative, respected, and influential advocate for the non-governmental heritage sector; it plays a pivotal role in the heritage sector and beyond; and connects heritage with the big issues in 21st century society. The Trust has a key input into the Mobile Heritage Advocacy Group via Trust Chairman Stuart Wilkinson who chairs this group.

National Transport Trust

Trustees' Report continued

The Trust is also a member of the Heritage Fuels Alliance which was formed to lobby on behalf of the mobile heritage sector in the context of the UK Government's plans to ban the burning of coal in non-industrial applications and reduction in the use of other fossil fuels. The Heritage Fuels Alliance has been successful in securing an exemption for mobile heritage but continued vigilance is essential.

Membership

Membership of the Trust has remained broadly stable - the average age of core Trust members is quite high, but recruitment activity and the ability to join online via the Trust's new website is delivering benefits.

The Trust's membership recruitment leaflet is circulated widely. We had at end October 2023, 422 (2022 - 432) members of which 114 (2022 - 117) are life/honorary members, 77 (2022 - 75) affiliate organisation members from within all spheres of the transport preservation arena and 231 (2022 - 240) individual members.

Transport Heritage Database and Red Wheels

The Trust maintains a comprehensive searchable online database of transport heritage sites on a national basis. This database is fully accessible from our National Transport Trust web site at www.nationaltransporttrust.org.uk. Sites which are of significant Transport Heritage importance, either nationally or internationally, are progressively being marked with a National Transport Trust Heritage plaque, via our Red Wheel scheme.

The existing plaques show a web site link which takes members of the public to the Red Wheel section of our web site where further information on the site can be found. This has been replaced with a separate QR code plate, to some sites, that now provides a direct link to the relevant part of our extensive database to provide further in depth information.

The web site link for our Red Wheels is: <https://www.nationaltransporttrust.org.uk/red-wheels/red-wheel-sites>, or the previous but still active link of www.transportheritage.com

This initiative started in 2009 and since then we have had 184 plaques manufactured, most of which have been installed and also 75 QR code plaques/Labels to enhance the linkage to our web site. Over this period a total of £84,664 has been expended, mainly from reserves, on this project and many thanks must go to Peter Stone for driving this project and to those who have assisted him.

Transport Digest and Website

The Trust's quarterly *Transport Digest* has content and quality of a very high standard for a special-interest magazine. We constantly seek ways to increase the distribution of the magazine, not only to meet our educational objectives, but also because the magazine acts as an excellent ambassador for the Trust. Members of the Trust can access, and download, all past copies of these digests via our web site and also its predecessor publications. A search function also exists to aid research.

The Trust's comprehensive website www.nationaltransporttrust.org.uk, which went live at the beginning of 2017, continues to be enhanced. The site works seamlessly with Smartphones, Tablets and PCs. The website includes the Red Wheel and Transport Heritage databases and also supports our membership records. The web site has a specific member's area for access to the Digest Magazine as well as facilities to update membership records and for affiliate members, we have just introduced micro web sites so they can increase their own web presence.

The Communication Sub-Committee has the responsibility for guiding the Digest and Website.

National Transport Trust

Trustees' Report continued

Reserves Policy

The Trust aims to maintain a minimum reserve of the equivalent of two years' operating costs. The rationale is that a period of two years would be enough time for trustees to decide how to deal with a life-threatening problem and to implement the identified actions. At the 31 October 2023 £289,283 was held in unrestricted funds, of which £285,063 are considered to be free reserves, which are sufficient for our needs.

Going concern

The level of free reserves is wholly sufficient to cover the foreseeable future and the trustees consider that there are no material uncertainties about the charity's ability to continue as a going concern nor any significant areas of uncertainty that affect the carrying value of assets held by the charity. Therefore, the accounts have been prepared on the going concern basis.

Structure, Governance and Management

Nature of governing document

The charity was initially incorporated on 29 July 1980 and was re-registered as a CIO on 15 July 2022, at which time its new governance document (constitution) came into effect.

Recruitment and appointment of trustees

The Board aims to have trustees representing all forms of transport including railway, aviation, road vehicles (car, motorcycle and commercial), military, maritime, waterway and agricultural vehicles, keeping a balance of interest between them.

A candidate will be discussed by the existing trustees. On approval he or she will be approached and asked as to their willingness to serve. A positive response will then lead to nomination, with appointment being subject to approval by members at the AGM, possibly following co-option if midway through the year.

Major risks and management of those risks

The trustees of the National Transport Trust have considered, and have implemented policies to cover, any risks to which the charity might be subject. A Risk Register is maintained and reviewed periodically by trustees.

The annual report was approved by the trustees of the charity on ~~11/04/2024~~ and signed on its behalf by:

Stuart Wilkinson
Chairman and Trustee

National Transport Trust

Statement of trustees' Responsibilities

The Charity's trustees are responsible for preparing a Trustees' Annual Report and financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) and applicable law and regulations.

The law applicable to Charities in England requires the trustees to prepare financial statements for each financial year, which give a true and fair view of the state of the affairs of the Charity and of the incoming resources and application of resources, of the Charity for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the applicable Charities SORP;
- make judgements that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Charity will continue its operations.

The trustees are responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Charity and to enable them to ensure that the financial statements comply with the Charities Act 2011, the applicable Charities (Accounts and Reports) Regulation, and the provisions of the Constitution. The trustees are also responsible for safeguarding the assets of the Charity and hence for taking reasonable steps for the prevention and detection of fraud or other irregularities.

The trustees are responsible for the maintenance and integrity of the charity and financial information included on the charity's website in accordance with the legislation in the United Kingdom governing the preparation and dissemination of financial statements.

Approved by the trustees of the charity on 11/04/2024 and signed on its behalf by:

Stuart Wilkinson
Chairman and Trustee

National Transport Trust

Independent Examiner's Report to the trustees of National Transport Trust

I report on the accounts of the charity for the year ended 31 October 2023 which are set out on pages 13 to 25.

Respective responsibilities of trustees and examiner

As the charity's trustees of National Transport Trust (CIO) formerly known as The Transport Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the National Transport Trust (CIO) formerly known as The Transport Trust's accounts carried out under section 145 of the Charities Act 2011 and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under Section 145(5)(b) of the Act.

Basis of independent examiner's report

My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with my examination, giving me cause to believe that in any material respect:

- (1) accounting records were not kept in respect of National Transport Trust (CIO) formerly known as Transport Trust as required by section 130 of the Act; or
- (2) the accounts do not accord with those records; or
- (3) the accounts do not comply with the accounting requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Stuart Wilkinson
Chairman and Trustee

Charity Registration Number: 280943

National Transport Trust

Notes to the Financial Statements

Year Ended 31 October 2023

1 Charity status

Up to 15th July 2022 the charity was a company limited by guarantee and consequently did not have share capital. Each of the members was liable to contribute an amount not exceeding £1 towards the assets of the charity in the event of liquidation. After that date the charity became a CIO and the liability of members remains the same.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019) - (Charities SORP (FRS 102)), and the Charities Act 2011.

Basis of preparation

The National Transport Trust (CIO) formerly known as Transport Trust meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy notes.

Going concern

The level of free reserves is wholly sufficient to cover the foreseeable future and the trustees consider that there are no material uncertainties about the charity's ability to continue as a going concern nor any significant areas of uncertainty that affect the carrying value of assets held by the charity.

Therefore, the accounts have been prepared on a going concern basis.

Income and endowments

All income is recognised once the charity has entitlement to the income, the income will be received, and the amount of the income receivable can be measured reliably.

National Transport Trust

Notes to the Financial Statements - Year Ended 31 October 2023

Donations and legacies

Donations are recognised when the charity has been notified in writing of both the amount and settlement date. In the event that a donation is subject to conditions that require a level of performance by the charity before the charity is entitled to the funds, the income is deferred and not recognised until either those conditions are fully met, or the fulfilment of those conditions is wholly within the control of the charity and it is probable that these conditions will be fulfilled in the reporting period.

Legacy gifts are recognised on a case-by-case basis following the grant of probate when the administrator/executor for the estate has communicated in writing both the amount and settlement date. In the event that the gift is in the form of an asset other than cash or a financial asset traded on a recognised stock exchange, recognition is subject to the value of the gift being reliably measurable with a degree of reasonable accuracy and the title to the asset having been transferred to the charity.

Deferred income

Deferred income represents amounts received for future periods and is released to incoming resources in the period for which, it has been received. Such income is only deferred when:

- The donor specifies that the grant or donation must only be used in future accounting periods; or
- The donor has imposed conditions which must be met before the charity has unconditional entitlement.

Expenditure

All expenditure is recognised once there is a legal or constructive obligation to that expenditure, it is probable settlement is required and the amount can be measured reliably. All costs are allocated to the applicable expenditure headings that aggregate similar costs to that category.

Charitable activities

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Governance costs

These include the costs attributable to the charity's compliance with constitutional and statutory requirements, including independent examination, strategic management and trustees' meetings and reimbursed expenses.

Taxation

The charity is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a CIO for UK corporation tax purposes. Accordingly, the charity is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the Taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

Tangible fixed assets

Fixed assets are included at cost. The Trust's policy is not to capitalise items under £500.

Heritage assets

For financial statement purposes, no value is attributed to relics and collections donated to the charity. Where these have been purchased by the charity they are initially recorded at cost.

National Transport Trust

Notes to the Financial Statements

Year Ended 31 October 2023

Depreciation and amortisation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Furniture and office equipment	25% reducing balance
Library shelving	10% reducing balance
Exhibition stand	25% reducing balance
Trophies, relics and collections	Nil

Fund structure

Unrestricted income funds are general funds that are available for use at the trustees' discretion in furtherance of the objectives of the charity.

Restricted income funds are those donated for use in a particular area or for specific purposes, the use of which is restricted to that area or purpose.

3 Income from donations, legacies and grants

National Transport Trust

Notes to the Financial Statements

Year Ended 31 October 2023

The Heritage assets of the Trust, shown in the accounts at £4,220, is a silver model of SS Great Britain awarded to the Preservationist of the Year annually.

The Trust also has two assets in which it has an interest.

The first is the steam locomotive Invicta, built in 1830 by Robert Stephenson and purchased by the Trust in 1977 for the sum of £1, to enable its rescue from display on an exposed outdoor pedestal in Kent. The locomotive was then restored to 1838 condition, funded by donations, and the locomotive was then loaned to Canterbury City Council and put on display at the Canterbury Heritage Museum. During 2019 it was successfully moved to a new location, the Whitstable Museum. The value of the locomotive is set at zero in the Trust's accounts as it is an historic museum artefact. For insurance purposes the Trust has agreed a value of £120,000 with the council but consider, because the locomotive is a unique heritage object, it has no resale value.

The second asset is a 1923 Garrett 10-ton steam road roller works number 34265 and named Consuelo Allen. This steam roller was sold to the Long Shop Museum, Leiston, for £1 in 2008. The agreement states that in the event of the Museum ceasing to exist for any reason that it shall revert to the Trust on the payment of £1. This asset again has no value assigned in the Trust's accounts.

14 Debtors

Accrued income	160	88
Other debtors	11,200	14,500
	<u>13,495</u>	<u>15,868</u>

In March 2013 a loan of £3,500 was made to the Locomotive Conservation and Learning Trust. This loan is repayable over a period of 5 years at an interest rate of 3% plus base rate per annum. This loan was extended in March 2018 for a further 5 years to March 2023 and a further renewal is being discussed. A new Loan Agreement has now been agreed with the Locomotive Conservation and Learning Trust for £3,500 to run for 5 years from March 2023, to enable them to complete their project.

In February 2021 a loan of £16,500 was made to the Gwili Vintage Carriage Group for a 5 year period on a reducing balance basis. The loan was to allow the Group to complete their purchase of a Cowans Sheldon Crane from the National Railway Museum. The loan is being repaid via a monthly hire agreement with the Gwili Railway.

Debtors includes £7,900 (2022: £11,200) receivable after more than one year.
